

ANESTHESIA PRODUCTS

Bickford Anesthesia Machines

All stand models provide DISS connections for external gas supplies. Completely assembled with 2 and 3 liter bags, breathing circuit and f/air kit scavenging system. 5 year warranty.

Stand Model Design Features:

- Quick release toggle latches for easy to change absorbent (prepack or loose granules).
- Pressure manometer
- Air intake valve
- Pop off valve (see through, easy to clean).
- Horizontal inhalation and exhalation valves to prevent valves from sticking in the open position
- O2 flowmeter 0.2 L to 5 LPM.
- O2 flush
- Compact, very mobile
- Absorber pole allows absorber to adjust up or down and also swings out of the way when not in use.
- Stand provides excellent stability
- Quick & easy switch over from rebreathing to non rebreathing system.

Vaporizers sold separately below

5050. Flowmeter, absorber, gas and no yoke.....	\$2,095.00
5051. Flowmeter, absorber, gas and 1 yoke	\$2,395.00
5052. Flowmeter, absorber, 2 yokes	\$2,595.00
5053. 2 Flowmeters, absorber, gas and no yoke.....	\$2,195.00
5054. 2 Flowmeters, absorber, gas and 1 yoke	\$2,495.00
5055. 2 Flowmeters, absorber, and 2 yokes.....	\$3,195.00

Wall Mounted Anesthesia Machine

Table plate 13" x 6 1/2", vaporizer mount, 0-5 L/min. flowmeter for oxygen, oxygen flush valve and CO2 Supersorber™. Absorber can be raised or lowered to suit, folds against wall when not in use. Vaporizer sold separately.

5056.....	\$2,295.00
5057. Vapomatic Vaporizer for Halothane	\$1,495.00
5058. Vapomatic Vaporizer for Isoflurane.....	\$1,495.00
5059. Vapomatic Vaporizer for Sevoflurane.....	\$1,495.00

Table Top Anesthesia Machines

With Vapomatic™ vaporizer. Oxygen only, D.I.S.S. Inlet Connection, Oxygen Flowmeter, Deluxe Bain Block.

5060.....	\$2,195.00
5061. Without Bain Block.....	\$1,925.00

Deluxe Table Top

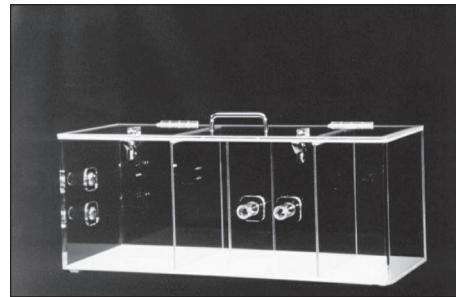

With Vapomatic™ Vaporizer, O2 flowmeter, Oxygen flush valve, CO2 absorber, PC-1 pop-off valve, pressure manometer and D.I.S.S. male connection.

5062.....	\$2,795.00

Anesthesia Induction Chambers

- Hand crafted out of 3/8" polycarbonate with strong metal latches.
- Tight fitting rubber seals prevent gas escaping.
- Can be used as an anesthesia induction chamber, oxygen chamber, humidifier and incubator.

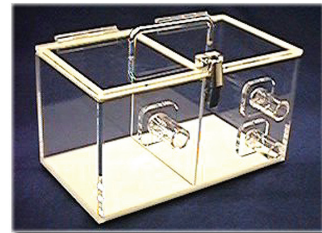

- Design features a 3 position adjustable vertical partition.
- Dimensions: 23" long, 9" wide, 9" high.

1447. Anesthesia induction chamber, X-large.....\$474.95

- Three variable sized compartments for small dogs to medium size cats
- Dimensions: 21" long, 7" wide, 7 1/2" high.

2448 Anesthesia induction chamber, large\$429.95

- Two compartment for smaller animals. Holds up to a 10lb cat.
- Dimensions: 16" long, 7" wide, 7 1/2" high.

2449 Anesthesia induction chamber, small\$375.95

- For use prior to intubation
- Made from semi transparent polyethylene impact resistant plastic, with a snap top.
- Has 15 mm standard taper connections (male and female) for connecting to anesthesia machine and overflow disposal.
- Complete with rubber tubing and instructions.
- Dimensions: 13" long, 12" wide, 11 1/2" high.

1446. Anesthesia induction chamber, small.....\$79.95

Anesthesia Masks (Rigid)

- Clear rigid plastic masks with soft open diaphragm for face.
- Comes apart easily for cleaning.

1207. Anesthesia mask - rigid - Cat - small 2" diameter.....	\$59.95
1208. Anesthesia mask - rigid - Cat - medium 2 1/4" diameter.....	\$59.95
1209. Anesthesia mask - rigid - Cat - large 2 1/2" diameter.....	\$59.95
1203. Anesthesia mask - rigid - Dog - small 3 1/2" diameter.....	\$33.95
1204. Anesthesia mask - rigid - Dog - medium 5" diameter.....	\$44.95
1205. Anesthesia mask - rigid - Dog - large 5 1/4" diameter.....	\$59.95

Anesthesia Masks (Soft)

1218. Anesthesia mask - soft - Cat - small 2" diameter.....	\$9.95
1219. Anesthesia mask - soft - Cat - medium 2 1/2" diameter.....	\$9.95
1220. Anesthesia mask - soft - Cat - large 3" diameter.....	\$9.95
1221. Anesthesia mask - soft - Cat - Set of 3.....	\$28.50

Breathing Bags

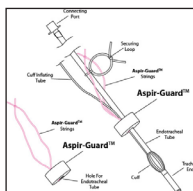

- Black conductive latex rubber.

1449. Breathing bag 1/2 Liter.....	\$20.50
1450. Breathing bag 1 Liter.....	\$20.50
1451. Breathing bag 2 Liter.....	\$20.50
1452. Breathing bag 3 Liter.....	\$20.75
1453. Breathing bag 4 Liter.....	\$21.50
1454. Breathing bag 5 Liter.....	\$22.25

Aspir-Guard

Prevents fluids and dental debris from being accidentally aspirated during a routine dental procedure. A dehydrated PVA donut shaped product, when rehydrated, has a soft gentle sponge like feel. It is placed over the distal end of the ET tube prior to intubation just outside the epiglottis, pushed into place to block the oropharynx after intubation. Attached strings are used to tie to the roll gauze or old IV tubing used to secure the ET tube to the patient. Gently remove together with the ET tube after procedure. Set of 9 consists 3 each of 3 sizes to fit 3.5mm to 10mm tubes.

2819.....	\$15.95
-----------	---------

Breathe Safe Apnea Monitor

Easy to use. Just connect between the endotracheal tube and anesthesia machine. Analysis algorithm will recognize and beep to indicate a breathe from a 1 pound kitten or a 200 pound St. Bernard. Will alert if the patient fails to breathe for 30 seconds. Automatic turn-on and shut-off, unbreakable and waterproof. on and shut-off, unbreakable and waterproof.

3197.....	\$222.25
-----------	----------

ConRad Thermal Blankets

Use immediately after induction of anesthesia to protect your patients against heat loss and shorten recovery time. Clinically proven effective solution with two-layer internal design which acts as a barrier to all three mechanisms of heat loss; conductive, convective and radiant. Maintain normothermia in surgical, dental, endoscopic, and imaging (X-ray, CT) procedures. Tested for thermal resistance to be equivalent to an extreme cold weather polar suit. Soft, supple, fluid-proof, reusable and easy to clean. Two functional options, one for general use and one for use in MRI specifically designed for no MRI signal loss or RF interference.

5109. Small (20" X 28").....	\$74.95
5110. Medium (24" X 34").....	\$84.95
5111. Large (28" x 41").....	\$94.95
5112. Complete Set of 3.....	\$254.95
5113. MRI Safe Small (20" X 28").....	\$109.95
5114. MRI Safe Medium (24" X 34").....	\$134.95
5115. MRI Safe Large (28" x 41").....	\$159.95
5116. MRI Safe Complete Set of 3.....	\$404.95

HoverHeat Warming System

The most complete patient air warming system ever created. The only true under and over body air warming system for any single warm air blower you may already own. Proprietary internal components levitate the patient on a cushion of low resistance warm heated airflow underneath the patient, something not previously possible with forced-air warming! Two HoverHeat units can be connected in series with the connector to provide under and over-body warming with one warm air blower. Three sizes to accommodate any animal and any procedure. Complete set includes small, medium and large HoverHeats, connector and adaptor. Connects to any warm air blower with adaptor that accommodates any blower hose or works. VetPro warm air blower available if needed.

- Use for surgical, dental, endoscopy, and imaging procedures.
- Use for Pre-op, Intra-op, and Post-op warming.
- Increases warming capacity of your air blower by 50% to 75%.
- The largest surface area of the body can now be warmed.
- Directs airflow away from the surgical field.
- No more disposable air warming blankets needed.
- Dynamic surface patient cushioning.
- No water warming messes.

5100. Small (29" X 14").....	\$295.95
5101. Medium (35" X 17").....	\$395.95
5102. Large (40" X 20").....	\$495.95
5103. Complete Set of 3.....	\$1,272.75

HoverHeat Connector

The HoverHeat connector can be used to connect two HoverHeat units to provide over and underbody warming with the same warm air blower. It expands from 22" to 60".

5104.....	\$39.95
-----------	---------

HoverHeat Adaptor

The HoverHeat can be used with your current warm air blower. Most warm air blowers already have a compatible hose (diameter 2.25 in). If not this adaptor will accommodate any hose diameter.

5105.....	\$44.95
-----------	---------

HoverHeat Cage Adapter

Need that cold cage warmed? Simply place the HoverHeat cage adapter on the bars of the cage door and attach your warm air blower to the adapter. Perfect for pre-op warming and post-op recovery.

5106.....	\$29.95
-----------	---------

HoverHeat Cage Warming Combo

Placed and locked onto the cage door to disperse warm air throughout the cage to provide pre-operative warming or connect to a HoverHeat warming unit inside the cage.

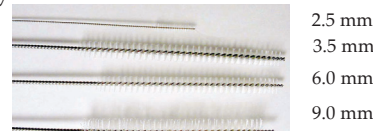

5107.....	\$49.95
-----------	---------

VetPro Warm Air Blower

Marries perfectly with the HoverHeat system. Compact design specifically for veterinary practices with 3 temperature settings, high volume air flow and IV pole attachment.

5108.....	\$1,850.00

Endotracheal Tube Cleaning Brushes (Finally brushes to fit tube sizes 2 - 10 mm !!)

- Custom made to pass through the entire length of endotracheal tubes and out the other end.
- White nylon bristles, stiff enough to clean inside walls in one or two sweeps.
- Stainless steel wire handles.
- 1466. For 2mm-3mm tubes. 1468. For 5mm-6.5mm tubes.

1466. Endotracheal tube cleaning brush 2.5 mm x 11".....	\$4.75
1467. Endotracheal tube cleaning brush 3.5 mm x 12".....	\$4.75
1468. Endotracheal tube cleaning brush 6.0 mm x 17".....	\$5.50
1469. Endotracheal tube cleaning brush 9.0 mm x 17".....	\$5.50
1470. Endotracheal tube cleaning brush Set of 4.....	\$19.25
